Dear Partners and Friends

Our very best greetings to you all and special thanks for the prayer and financial support we have received from you this year. The Lord has done some great things and milestones have been made in various locations where we labor. One of those milestones is the **new Bible School building in Papua New Guinea**

Papua New Guinea was chosen to be the next country where a building was to be constructed by a great team of men and women from the USA. Brother and Sister Dan Maxwell, (Pastor) along with their team members, Brother and Sister Fox, Brother Teague (Pastor), Brother Masters (Pastor), and Brother and Sister Fox Jr. all from Missouri, came at their own expense to construct the building. The building itself was collected by the Maxwells from various sources in the USA, much of the material being buildings that had been pulled down and the materials

then donated for a building. These materials were then put in a shipping container and sent by ship to the other side of the world! Finally they arrived in the shipping port of Lae, PNG and due to the fact it was a 40 foot container, no truck could then bring it up to the highlands of PNG, to Goroka. So the container was emptied in Lae and reloaded into 2 smaller containers and finally trucked to the building site. This building is for Bible School and will be used for classes for full time students as well as evening classes and also for seminars and leadership training. This is the first Bible school building in PNG and will be used by many eager and committed students and teachers. Go to our website to read and see more about this. You can also view [videos](#) of the building work. Go to www.carveronline.com

ANNUAL MINISTERS CONFERENCE

September 2-4, 2005 Goroka, Papua New Guinea

The Annual Ministers conference was held in Goroka with special guest our Regional Director, **Rev Richard Denny** as our speaker. Once again this meeting was held in Brother Sinakadi's (National Secretary) church which adequately holds the crowd of about 1000 people on the Sunday morning. Brother Sinakadi and church members made a great effort in trying to get their church floor cemented in time for this meeting. There was a good attendance of about 1000 on the Sunday morning. After the service we held a ministers information morning where we updated their records and got them to fill out some questionnaires. The ministry was encouraged and ready to face another year, many of them in remote areas of the country. See more on our web site. www.carveronline.com

SINCERE THANKS FOR YOUR ONGOING SUPPORT. Best wishes for the New Year from us both.
